

McSwain's Ag Choice Board!

This is the final assignment I will be giving you for the 2019-2020 school year, and for some of you, the last of your high school career. Before I give you instructions, I wanted to let you all know how much I have enjoyed having you this year. I hate that it was cut short, and I hope to see you all again as soon as possible. Each one of you brings such a unique gift to the classroom, shop, greenhouse, etc.

So without further delay, here is your final assignment! Below is a "choice board" with three different options. I want you to choose ONE project to complete. Each one can be done as either a Google Doc, Presentation, Movie, Audio Recording, Tik Tok, I don't care! Just pick one prompt and address it!

Easy-peasy-lemon-squeezy. But remember, this is your final assignment, so do it right! (Especially if you haven't completed one of my assignments yet... *cough cough*)

<p>1. Identify three skills that you have learned this year in any class, (not just Ag!) and tell me how you will use these skills in the future to be successful in your career, or if you have a current job, how they help you today.</p>	<p>2. How do you think the Coronavirus shutdown has impacted our economy, specifically in the agriculture sector? (Grocery stores, farmers and ranchers). What have been some positives and negatives of this shutdown and what have you learned from it? (There are no wrong answers here, I want to know what you feel!)</p>	<p>3. Teacher Appreciation Week is coming up! I want you to write a letter to a teacher who has impacted your life in a positive way. Tell them what meaningful things they have taught you and why you appreciate them. This can be a current teacher or someone you had when you were 5!</p> <p>Send me proof of your letter, even if it is just forwarding me an email that you send them. Make it sincere!</p>
